Rotating Recessed Heavy Duty D- Ring #B901D

This heavy-duty recessed tie down anchor has a 6-1/4" diameter. 6,000lbs Capacity. Built from heavy duty galvanized steel, corrosion and rust resistant, this one's made to last. 3" wide x 3/4" high (inner clearance) D-Ring is incredibly versatile because it rotates all the way around 360 degrees, providing you with MORE flexibility.

Easily anchor tie downs in any direction without friction. Attach your ratchet/cam straps with S-hooks or J-hooks, tarp straps, bungee cords, motorcycle tie-downs, clevis/grab hook chains, ropes or soft loops. Transport your motorcycle, snowmobile, farm and landscaping equipment feeling confident in the strength of your securement system.

EASY INSTALLATION: This d-ring recessed tie down anchor installs with typical bolts or screws NOT included with this product
